

A Greener Christmas 2020

2020 the hottest ever year
Let's hope it doesn't affect Santa's reindeer.
Stop burning fossil fuels and polluting the sky,
Otherwise how will Rudolph be fit to fly?
Fungi is lost in the sea,
If there was less pollution maybe he would be easier to
see.

Climate change is not fake news,
Now that Trump has gone hopefully everyone shares
this view,

Let's have a safe Christmas with lots of fun,
And hope we can meet Granny to help her recycle in
2021.
